The secret night

After her apartment was burn when she was infected by the nanobots, Lestrade moved temporally to 221B Baker Street, her room is Mrs. Hudson' room. She understood why the housekeeper was angry sometimes with Holmes. He had peculiar hours to sleep, smoke, to do chemistral experiments and he received all kind of people.

But she is different, she is not the housekeeper, she is a friend and a mate. And he is not the same man.

One night Holmes and Watson had to go to Bristol, an important person needed them. So she wasn't wait them.

She had dinner early and listened the radio until 2 am. After that she decided to be a rebel woman and she went to sleep at Holmes' bedroom.

When she entered at his room, she felt enchant with the ambient.

"I want to sleep here." thought Lestrade "I will not hurt nobody" and she lay down on the bed.

At 4 am two gentlemen opened the door of 221B Baker Street, Watson needed to sleep, Holmes was tired and taciturn. Without angry Watson went to his bedroom and Holmes went to his bedroom too.

"Well. I have failed three times on my other time. This is the first fail since Lestrade back me to life." thought Holmes.

He opened the door and found someone on his bed: the Inspector Lestrade.

He didn't know how to act, she was sleeping soundly. He decided to sleep near her (He didn't want to sleep on the sofa) but what about her?

Holmes took off his shoes and changed his clothes for a pijama- He didn't use pijama but in that occasion was necessary- and layed down near Lestrade.

She moved, they stayed face to face. Holmes looked at her and felt...right. "I like see her here." he thought "No, no, no. I did a promise. I promise her something the first night I lived in this century."

But she knock down his attitude when she hugged him, she put her left arm around his waist and her right leg between his legs. She didn't wake up.

Holmes sighed and hugged her back and said with slow voice:

-This will be our secret.

She put her head on his neck.

-You are something I didn't expect find. I always had feels but my mind govern my heart, including when you were in danger. If you didn't survive to the Musgrave's ritual or when Smith puts the nanobots inside you, I...

-Shhhhhh

Lestrade opened her eyes and saw him:

When did you back?

A few hours ago

Mmm, sorry, I fell tired to go to my bedr...

Good, back to sleep.

Why do you say that? Aren't you angry for find me on your bed?

No, I'm not angry. Now back to sleep.
